### EDUCATION

- **Master of Technology (MTech-Communication Engineering)** from Vellore Institute of Technology (VIT), Tamilnadu, India.
- **Bachelor of Engineering (BE - ECE)** from Anna university (Ganadipathy Tulsis Engineering College), Tamilnadu, India

### PROFESSIONAL SUMMARY

- **14+ years of IT experience in Banking, Insurance, and Retail domains**
- Employed with **Tata Consultancy Services (TCS)** since 2009
- Hands-on experience with leading clients such as **Transamerica (USA), Morgan Stanley (USA), and Barclays International (UK)**

### CORE COMPETENCIES

- Application design, development, and support across all **SDLC phases**
- Strong in **impact analysis, requirement gathering, high/low-level design**, and architectural discussions
- Experience leading **database migration**, performance tuning, and root cause analysis
- Skilled in monitoring tools: **AppDynamics, ELK, Splunk, Dynatrace, Autosys**
- Adept in **SQL optimization**, complex queries, and **QlikSense** reporting
- Experience with **Unix/Linux**, file systems, and shell scripting
- Exposure to **ODI, ServiceNow, JIRA**, and capacity performance monitoring

### TECHNICAL SKILLS

Languages	SQL, PL/SQL, Python, Shell Scripting, Java
Databases	MS SQL Server, Oracle, Sybase, Cassandra
Tools	QlikSense, ODI, Splunk, AppDynamics, Dynatrace, Gomez, JIRA, ServiceNow
Platforms	Unix, Linux, Solaris, Windows
Domains	Banking & Financial Services, Insurance

### AWARD DETAILS

- **Star of the Month** (3 times)
- **Contextual Master Award** for key achievements
- **Beyond Performance Award** (5 times)
- **On-the-Spot Award** (3 times)
- **Best Team Award**

## PROFESSIONAL EXPERIENCE

### Client -Diligenta, UK (June 2022 – Present)

**Role:** Technical Lead

- Led **AppDynamics migration** from on-prem to SaaS (Cloud)
- Implemented monitoring solutions using **AppDynamics** and **ELK**
- Collaborated with multiple teams (network, proxy, vendors) for agent deployment, certification, and issue resolution

**Tools:** AppDynamics, ELK, Arcon PAM

---

### Client -Transamerica, USA (Apr 2019 – May 2022)

**Role:** Technical Lead

- Directed **database migration** for Life, Annuity, and Health insurance systems
- Used **ODI, SQL Developer** for data profiling, reconciliation, and error resolution
- Built reports using **QlikSense**; coordinated with BA and Testing teams

**Tech Stack:** PL/SQL, UNIX Shell Scripting, SPLUNK | **Database:** MS SQL

---

### Client -Barclays International, UK (Aug 2015 – Apr 2019)

**Role:** Technical Lead

- Developed dashboards using **Splunk**, fixed Unix file-level bugs
- Supported **AEM, SOLR, Hybris servers**
- Client interaction for weekly project reviews and performance issue analysis

**Tech Stack:** PL/SQL, UNIX, Splunk, Gomez, Platman | **Database:** MS SQL

---

### Client -Morgan Stanley, USA (Dec 2009 – Aug 2015)

**Role:** Programmer

- Built a centralized **self-monitoring tool** for server and application alerts
- Developed alert automation using **Autosys, MQ, Perl, Java**
- Managed performance monitoring across multiple platforms

**Tech Stack:** PL/SQL, UNIX, Perl, Java, Autosys, MQ

**Database:** MS SQL, Sybase, Cassandra
